★ COMMERCIAL PROJECT PROPOSAL • INFAVOUR SOLUTIONS

Digital Transformation & Web Portal Proposal

Strategic Inbound Tourism Platform for Ravi Tours & Travels

CLIENT BUSINESS	PREPARED EXCLUSIVELY BY	REF CODE & DATE
Ravi Tours & Travels	Infavour Solutions	IFS-PROP-2026-RTT-001 • Oct 2026

1. Project Context & Commercial Opportunity

The international travel market to Sri Lanka is seeing historic surges in high-net-worth travelers from the United Kingdom, Europe, Australia, North America, and the Gulf. However, independent tour operators face two severe commercial barriers:

- ✓ **Crushing Middleman Fees:** Online Travel Agencies (Viator, GetYourGuide, TripAdvisor, Booking.com) demand **20% to 30% commission** on every excursion booked, eroding operating profit margins.
- ✓ **Timezone & Trust Hesitation:** International guests looking to spend $1,500 – $4,000 require immediate booking reassurance and visual transparency before paying advance deposits.

2. The Strategic Solution

Infavour Solutions proposes the official deployment and operational enablement of the custom-engineered **Ravi Tours & Travels** digital platform. This solution transforms your business from an offline driver operation into a **premier Destination Management Company (DMC)** with full ownership of your guest relationships and direct profits.

💰 100% Commission-Free Direct Bookings

Every booking captured through your direct web portal yields 100% net revenue to your business—no platform fees or broker cuts.

⚡ 24/7 Automated WhatsApp Pipeline

Captures hot inquiries from travelers in Europe and the Americas across all timezones, delivering pre-filled itineraries straight to your phone.

📈 Shift to High-Ticket Packages

High-polish itinerary showcases justify $1,500 - $4,000 multi-day packages instead of low-margin short city transfers.

🌐 Organic Google Search Engine Dominance

Built-in destination knowledge guides attract free organic traffic for high-intent search queries worldwide.

🎯 Executive ROI Projection

By capturing just **2 to 3 direct multi-day private tour bookings**, this platform will completely pay for itself, generating compounding profit returns for years to come.

3. Detailed Scope of Work & Deliverables

Module A: Custom Web Portal & Modern Design System

Custom-built application utilizing Next.js App Router, React, and Tailwind CSS. Modern luxury branding palette featuring Deep Oceanic Blue (#07345A), Ceylon Gold (#F6A623), and Coastal Cyan (#087EA4). Mobile-first, responsive, and ultra-fast.

Module B: Interactive Trip Planner & WhatsApp Engine

Bespoke 3-step holiday builder allowing guests to customize travel destinations, duration, and preferences. Integrated direct WhatsApp lead generator with automated itinerary pre-formatting for instant mobile quotation.

Module C: Tour Catalog & Day-by-Day Itineraries

Multi-tier tour showcase (Cultural, Wildlife, Beaches, Hill Country, Honeymoons) featuring day-by-day morning/evening agendas, vehicle fleet details, transparent Inclusions/Exclusions, and direct inquiry modals.

Module D: Sri Lanka Destination Knowledge Hub

Comprehensive destination guides (Sigiriya, Ella, Kandy, Nuwara Eliya, Yala, Mirissa, Galle) engineered for organic Google SEO discovery and cross-tour linking.

Module E: Transport & Fleet Monetization Showcase

Service showcase covering private chauffeur-guides (sedans, luxury KDH vans, SUVs), 24/7 CMB Airport transfers with flight monitoring, safari jeeps, and scenic train ticket reservations.

Module F: International Social Proof & Trust Hub

Verified international traveler testimonials, government registration badges, 24/7 on-tour safety guarantees, and clear booking transparency.

4. Implementation Timeline & Milestones

PHASE / MILESTONE	CORE DELIVERABLES	DURATION
Phase 1: Architecture & Brand Alignment	Brand palette calibration, typography, content structuring, and wireframing	**Week 1**
Phase 2: Core Engineering & Components	Next.js App Router development, Trip Planner engine, and interactive forms	**Week 2**
Phase 3: Itinerary & Content Integration	Tours, destination guides, vehicle fleet specs, customer reviews integration	**Week 3**
Phase 4: QA, Mobile Testing & Deployment	Cross-device testing, Google SEO indexing, Cloudflare/Vercel production launch	**Week 4**

5. Commercial Investment & Engagement Options

RECOMMENDED CHOICE

Option A: Complete Turnkey Portal

Everything needed to launch and start capturing direct bookings.

- Full Next.js Custom Production Web Platform
- Interactive Trip Planner & Direct WhatsApp Engine
- Comprehensive Tour & Destination Guide Catalog
- Service & Fleet Showcase (Airport CMB Transfers)
- Complete Technical SEO (Sitemaps, Robots, OG Tags)
- Production Cloud Hosting & Domain DNS Setup
- **30-Day Zero-Defect Post-Launch Warranty**
- 1-on-1 Staff Training on Managing Incoming Leads

Option B: Enterprise Growth Suite

Turnkey Portal plus ongoing quarterly marketing & technical management.

- **Includes All Features from Option A**
- Quarterly Tour Itinerary & Pricing Updates
- Seasonal Promotional Banner & Campaign Management
- Quarterly Google SEO Health & Ranking Audits
- Monthly Cloud Uptime & Database Security Backups
- Priority WhatsApp Technical Support Channel
- Quarterly Traffic & Lead Conversion Analytics

6. Warranty, Intellectual Property & SLA

- ✓ **100% Code Ownership:** Ravi Tours & Travels receives full, unencumbered ownership of all custom source code, assets, and design files upon completion. No recurring licensing fees.
- ✓ **30-Day Defect Warranty:** Infavour Solutions guarantees resolution of any technical defects or layout adjustments at zero additional charge for 30 days post-launch.
- ✓ **Enterprise Performance Guarantee:** Sub-second page loads engineered specifically to accommodate international tourist connections.

7. Proposal Acceptance & Authorization

By signing below, the parties agree to the scope and terms described in this proposal. Infavour Solutions will proceed with final staging, domain linking, and public launch.
